responsibilities and respective capabilities' in order to achieve the objectives of the convention. While the actions of the developed countries should include deep and ambitious targets for emission reduction in the second commitment period (post 2012) of the Kyoto Protocol, the actions of the developing countries will depend on the support in terms of finance and technology provided by the developed countries.

While India has already taken a number of steps, on its own, to adapt to and mitigate climate change impacts in the interest of sustainable development, India will take further voluntary and nationally appropriate actions for addressing climate change impacts strictly in accordance with the priorities and objectives laid down under its National Action Plan for Climate Change.
